

## INS6104A —1:4 Low Skew Clock Buffer

### FEATURES

- Low skew outputs (50ps)
- Low power CMOS technology
- Operating Voltages of 3.3V/2.5V  $\pm$  5%
- Output Enable pin tri-states outputs
- 3.6 V tolerant input clock
- Totally Lead-Free & Fully RoHS Compliant
- Halogen and Antimony Free. “Green” Device
- Industrial temperature range: -40°C to +85°C
- Packaged: 8-pin SOIC

### APPLICATIONS

- Wireless BBU, RRU and Wired Communication
- Servers, Computing, PCI Express (PCIe)
- Switches, Routers, Line Cards, Timing Cards

### GENERAL DESCRIPTIONS

The INS6104A is a low skew, single input to four output, clock buffer. Perfect for fanning out multiple clock outputs. The input clock is distributed to four LVC MOS outputs which can be enabled or disabled by OE pin. The INS6104A operates from a 3.3V/2.5V power supply.

## 5 FUNCTION DESCRIPTION

### 5.1 Control Signals

The outputs provide 4 LVCMOS copy of the input clock. The LVCMOS output high level is referenced to the  $V_{DD}$  voltage. The outputs can be enabled or disabled using the enable input pin, OE, as shown in Table 7.

Table 7. Reference Output Enable

OE	Outputs State
0	Hi-Z
1	Enabled

### 5.2 Input Clock

The BUF\_IN input could be a LVCMOS clock up to 100MHz as shown in Figure 3. It is better to route the clock trace on the component side with a serial resistor close to the output pin ( $\leq 200\text{mil}$ ).

Figure 3. LVCMOS Input Clock

### 5.3 CLOCK OUTPUTS

INS6104A has 4 LVCMOS outputs OUTPUT1, OUTPUT2, OUTPUT3, OUTPUT4. A serial terminating resistor may be used on each clock output if the trace is longer than 1 inch.

Figure 4. Output Termination

#### Notes

- Unused outputs could be left floating to minimize capacitance. In this way, this output will consume minimal output current because it has no load.

## 5.4 Power Supply

$V_{DD}$  is INS6104A power supply voltage support 3.3V and 2.5V.

---

### Notes

- .1uF or 0.01uF bypass capacitors should be placed very close to each supply pin
  - 1uF to 10uF Decoupling capacitors should be placed nearby
